Distance
The distance from the trail terminus adjacent to Dal-labetta Park (near Rivera Bridge) to Animas City Park is approximately 7.5 Miles.

Markers
Surface mounted mile markers are located every half mile and the zero marker is located at Rotary Park, with distance markers to the north and south along the Animas River Trail.

Bridges and Underpasses
On the mainline of the Animas River Trail, there are eleven pedestrian bridges and three underpasses to avoid crossing major roads and highways.

Lights
There are a series of over 200 trail lights illuminating the Animas River Trail at night.

Development
The development of the Animas River Trail in Durango has occurred over several decades, beginning in 1976 until today.

Trail System Development
Trail user desires have evolved and the Parks and Recreation Department welcomes input from the community on enhancements to the existing trail system. Please contact the Department at 970-375-7321 or by email rec@durangogov.org to discuss trail maintenance, trail routes or new trail opportunities.
City of Durango

Trails Rules and Etiquette

The City of Durango is expanding upon the Share the Trail philosophy to provide clear guidelines for the use of City trails to enhance the enjoyable experience of all trail users without adversely impacting the use of others. Trails are for everyone. Please respect other trail users and adhere to the following local trail expectations:

- **Be courteous.** All trail users should be respectful and aware of other users regardless of their mode, speed, or level of skill. Dogs must be on a leash. Keep trails clean and safe by disposing of trash and animal waste in appropriate trash receptacles.

- **Be predictable.** Travel in a consistent and predictable manner. Keep right and pass on left. Always look behind before changing positions on the trail.

- **Yield to other trail users.** Yield to slower and oncoming traffic. Bicyclists yield to pedestrians; and bicyclists riding downhill yield to bicyclists riding uphill. Yielding the right-of-way requires slowing down to a safe speed, being prepared to stop, establishing communication and passing safely. When merging onto a multi-use hard surface trail, yield to other users on the primary trail corridor.

- **Be observable.** Provide an easy to hear warning before passing. Give a clear signal using voice (state “On your left”), bell or horn well before passing. Wear lights and reflective clothing at night. Wear only one ear bud if listening to devices.

- **Don’t block the trail.** When in a group or with your pets, move off the trail to avoid blocking the flow of other users. When stopping, trail users should move off the trail.

- **Control your speed.** Slow down and use caution when approaching other trail users and blind turns. Please keep speed under 10 mph on City hard surface trails.

- **Conscious of noise.** Be conscious of noise impacts on the experience of others and adjacent neighbors.
